And you? Which social jacket do you want?

Watch the trailer here:

Which challenges is our social protection faced with? Pensions, health care, housing, re-employment, disability, volunteerism... these are all themes citizens have a lot of questions about. Which choices are being made today, in times of crisis, in Belgium and elsewhere in Europe? And which consequences do these choices have in daily life?

On December 4, come and discover **FULL SOCIAL JACKET**, a project based on a web documentary on the social protection of the Belgians and the Europeans, on 4 December 2013. The web documentary opens the debate and gives the floor to all parties concerned: institutions, civil society, social partners, policy-makers and citizens. Ten real-life stories, expert opinions, about 2 hours of videos, computer graphics ... and also the social media, an online game, a blog and a participative exposition will give food for thought.

Agenda

10 a.m. : Presentation of the project in the presence of **Mrs Laurette Onkelinx**, Vice Prime Minister and Minister of Social Affairs.

11 a.m. : Visit to the participative exposition and **interviews**
